

## **Country Club Junior Program**

### **Junior Program Overview**

Spin Tennis Country Club Junior Program offer a complete and progressive tennis course adapted to kids of all ages and abilities. Tennis classes are offered daily, with flexible schedules to meet everyone's needs and level of commitment. It is based on our Spin Tennis Academy, who has been running and successfully developed players since 2014.

Our Extensive Junior Program is session-based and designed for beginner to intermediate players.

- **Red** & **Orange** classes are designed for children aged 10 and under
- **Green** & **Yellow** classes are designed for players aged 11 until 17

Spin Tennis coaching staff uses an engaging and dynamic class format to develop the players' techniques, strokes and to build an athletic foundation for tennis and other sports.

For players interested in competition, Spin Tennis also offer a development pathway with three tailor made programs. The programs offers both after-school training and weekend training camps.

Prior to acceptance into the program, all junior players will be assessed and evaluated, ensuring they are placed into the appropriate skill level grouping.

All groups are kept to a minimum student teacher ratio, allowing that each junior gets a constant and consistent level of individualized attention during each session.

At the end of each semester and through the Award Scheme, all the players will be given participation certificates and progress reports. Prizes and Awards to specific juniors for the most improved and most promising will also be given out.

### **Annual Calendar of Social Events**

For both the Junior and Adult sections a calendar of social events will be created and implemented to cater for all levels of play.

Each event will incorporate special scoring systems and formats along with frequent rotations, to create a fun atmosphere and satisfy all participants.
